PROFESSIONAL SUMMARY

Motivated Computer Science and Business Systems student with a strong foundation in Java and database management systems. Enthusiastic about developing efficient software solutions and continuously exploring new technologies. Possesses strong problem-solving, analytical, and teamwork skills, with a deep interest in software, web, and application development.

TECHNICAL SKILLS

Languages: Java , JavaScript , SQL

Frontend: React.js, TailwindCSS , HTML, CSS

Backend: SpringBoot , Rest API

Databases: MongoDB , MySQL

PROJECTS

Smart Task Manager

Spring Boot · React·MySQL · JWT Authentication

- Built and deployed a task management application using Spring Boot and React, enabling users to create, update, and manage tasks efficiently.
- Implemented JWT-based authentication and authorization to ensure secure API access and user-specific task operations.
- Designed RESTful APIs and integrated MySQL for persistent data storage and seamless backend communication.
- Built responsive user interfaces and optimized task management workflows, improving usability and productivity.

AI-Based Employee Performance Tracker

Spring Boot · React·MongoDB · JWT Authentication

- Designed an employee performance tracking system using Spring Boot and React to monitor and manage employee productivity.
- Implemented JWT-based authentication and authorization, ensuring secure API access and user-specific operations.
- Integrated MongoDB for efficient data storage and designed RESTful APIs for seamless communication between the frontend and backend.
- Utilized Axios and Postman for API integration, testing, and validation of application functionalities.

ACHIEVEMENTS

- Participated in Hack O Hertz 2026 and developed a Fake Ad Detection system during a 36-hour hackathon.
- Published an IEEE research paper titled “Energy Efficient Adaptive Scheduling for Communication-Aware In-Memory Wireless Neural Networks.”
- Built and deployed full-stack applications using Spring Boot, React, MySQL, and MongoDB.
- Participated in technical symposiums and coding competitions conducted by various institutions.

EDUCATION

B.Tech Computer Science and Business Systems | Panimalar Engineering College

2023 – 2027

CGPA: 8.073 / 10

CERTIFICATIONS

- **Web Development Intern** – Test Yantra Software Solutions, 2025
- **Customer Support Intern** – Sutherland Global Services, 2025
